

ADVANCED NAVAL TECHNOLOGY EXERCISE / COASTAL TRIDENT

Sponsors: Naval Surface Warfare Center, Port Hueneme Division

Focus: An Advanced Naval Technology Exercise (ANTX) event, Coastal Trident is leveraged as a venue to support high-velocity learning and accelerated development, evaluation, and identification of barriers to implementation of technologies to assist Navy forces in the following areas:

- In-service engineering, maintenance, and supportability
- Sensor data fusion, maritime communications, and decision support
- Multi-spectral sensing, augmented (AR)/virtual reality (VR), and digital engineering
- Unmanned Systems (UxS) applications and countermeasure

Location: Port Hueneme, CA

Type of Event: Event Series

Entry Criteria: Coastal Trident presents a great opportunity for SBIR applicants with a low barrier entry criterion through invitations.

Challenges: Timely submissions. Minimal exposure other than distinguished visitors. May have follow-on contracts.

When?

Annually, June-September
